

Green policy and projection

As per the directives of the MHRD and IIT Council, the Green Office of IIT Jodhpur will carry out green audit of various activities of the Institute which involve curriculum design, conservation of energy and water, waste treatment, approach towards construction projects, preservation of natural resources and the commitment to biodiversity conservation. In response to the Kakodkar Committee advice, IIT Jodhpur remains committed to pay due attention to ensure that its curriculum allows sufficient room for inculcating virtues such as developing sustainable technologies and protecting the environment which is essential to the survival of the mankind.

Vision

Be the institute with net zero waste, zero energy consumption and zero carbon footprint.
